Elevator Pitch

Helpy
the smart office solution

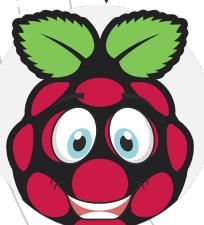

FOR employees, WHO NEED to perform their daily business work, **HELPY IS A** smart office solution that facilitates the daily business routine and THAT takes over the status reports of an employee.

UNLIKE other usual smart office solutions, **HELPY** assists in all sorts of situations in the workplace with only little effort required by the employee.

Project Idea

Problem & Solution

Problem:

- Missing balance in (Home-)Office
- Less drinking and bad air quality
- Difficult to work concentrated due to regular interruptions by colleagues

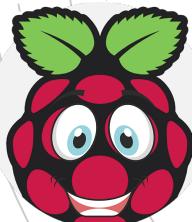

Solution:

- Easy and visible adjustment of availability status
- Reminder function to drink regularly
- Measurement of air quality and reminder function for regular ventilation

Helpy

MVP & Technology

MVP

- 1. Availability Status**
- 2. Drinking reminder**
- 3. Ventilation reminder**

Technology

Sensehat

Sensors &
Triggers

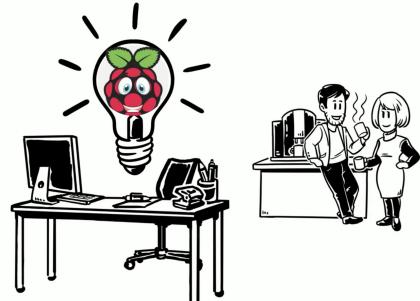

Raspberry Pi

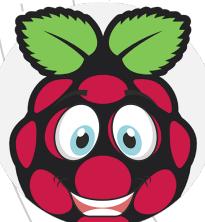

Reactive room with coded rule system

Demo Video

Smart
Efficient
Easy &
Automated
